

ChyronHego's next generation CAMIO4® graphics asset management solution provides MOS Newsroom Computer Systems (NRCS) integration for ChyronHego's industry leading Lyric™ PRO graphics creation and PowerClips™ playback devices while also functioning as a Content Distribution tool.

This highly versatile solution does the work of multiple devices, resulting in a direct reduction in operating expenses for your facility.

HERE ARE 5 REASONS YOU NEED CAMIO

- 1. CAMIO integrates with MOS Newsroom Computer Systems from ENPS, Avid iNews, Dalet, Annova, Octopus, and others.**
Newsroom users have easy, immediate access to graphic assets directly from their NRCS desktop.
- 2. Unicode Support.**
Multiple languages are supported within the User Interface and metadata.
- 3. CAMIO interfaces directly with ChyronHego's Lyric PRO broadcast graphics creation application and PowerClips graphics playback system.**
This highly versatile solution does the work usually requiring multiple devices, resulting in a direct reduction in operating expenses for your facility.
- 4. Embedded portal to Axis World Graphics, ChyronHego's cloud-based self-service graphics creation and order management solution.**
Extend the reach of your graphics creation resources. With Axis World Graphics, your graphic assets are never out of reach and always available.
- 5. Powerful, expandable technology.**
CAMIO now offers faster processing and is expandable to more users and playout devices.
